OBJECT: KUNZLE & TASIN's Relaunching Plan

Dear Sirs,

We are pleased to introduce KUNZLE & TASIN S.r.l. to you. We are a new company set up after the sale of the assets of the bankrupted Künzle & Tasin S.p.A. from the Court of Milan.

The takeover has started on 25th July 2010.

The new company KUNZLE & TASIN S.r.l. is totally under the control of Biffignandi S.p.A. (www.siabiffi.com), a company operating on the Italian market that, since 1923, has been successfully dealing with the flexible abrasives from the Swiss company sia Abrasives.

Biffignandi S.p.A., renowned for being totally trustworthy from both a commercial and financial point of view, have been in the past a long-term business partner of K&T.

Our aim is to work for the recovery of the Künzle & Tasin brand, a leading player in the market, synonymous of quality and innovation in the hardwood flooring business and to grant a full operating and financial support together with a proper management and an innovative R&D.

Moving forward, it is our intention to increase dealer confidence, loyalty and cooperative relationships with all our customers through every possible opportunity in order to regain a top quality service as soon as possible.

We will contact you in the near future to see if you have any orders that are required urgently. Moreover, our web site www.kunzletasin.com is working again starting from today.
